DETAILED ACTION

Response to Amendment

1. Applicant's response to the office action filed on May 3, 2005 and May 19, 2005 and the substitute specification have been entered. The claims pending in this application are claims 32 and 33.

Specification

2. The disclosure is objected to because of the following informalities: (1) there are several amino acid sequences with 4 or more amino acids in page 7, last paragraph, page 8, line 1, and page 8, lines 18 and 20 in the specification. However, these sequences have no SEQ ID Nos in the specification and these sequence are not in the sequencing listing; and (2) in table 1, the specification describes pieces of SEQ ID Nos: 4-6. However, it is unclear that the pieces of SEQ ID Nos: 4-6 are from which parts of SEQ ID Nos: 4-6. Applicant is required to locate amino acid locations of the pieces of SEQ ID Nos: 4-6.

Appropriate correction is required.

3. The following is an examiner's statement of reasons for allowance:

Claims 32 and 33 are allowable in light of the applicant's amendments filed on May 3, 2005 and May 19, 2005. Note that applicant has canceled all rejected and non-elected claims 1, 4-7, 9, 10, 15-17, and 31. Since there is no art in the record to read SEQ ID NO:1, the prior arts in the record do not teach or reasonably suggest an isolated, purified or recombinant nucleic acid sequence and an isolated, purified or recombinant construct which comprise all of the limitations recited in claims 32 and 33.
